

# Caution!

## Radon Test In Progress

### Closed-Building Conditions Must Be Maintained.

- All windows must remain shut.
- All exterior doors must remain closed, except for brief entry or exit.
- Heating, central air conditioning and recovery ventilators shall be operated normally.
- Whole house fans and window fans should not be operated.
- Window A/C units may be operated in recirculation mode.
- Fireplaces and combustion appliances should not be operated unless they are the primary source of heat.
- Fireplace dampers should be shut, unless it is the primary source of heat.
- The Radon Mitigation System must remain in operation.
- Do not move, cover or alter the performance of any detector.
- Forced air heating or cooling systems should not have the fan operating continuously unless it is a permanent setting.
- Operation of dryers, range hoods, and bathroom fans should be minimized.
